You Get Out of Transition Year What YOU Put into Transition Year!

Advice from current TY Students to 3rd Years:

- Get your Gaisce activities organised early, get most of them done in the first term.
- Try to get ECDL done as quickly as possible. Start it straight away!
- Get your work experience placements sorted early because the good ones get booked early.
- Keep all your sheets in your TY Folder from the start of the year.
- Get involved in as many things as you can – sign up for everything.
- Keep up to date with Book Reports; don't leave projects until the last minute.
- Open yourself to new ideas, get to know people in your class, make new friends.
- Make an effort in TY because if you don't put an effort into it, you won't get anything out of it.
- Do as much as you can outside of school while you have the time.
- Don't waste your time. GO TO SCHOOL! Otherwise it's pretty pointless.
- Work at your academic subjects because EXAMS come around quickly.
- Teachers can teach you, they cannot make you work so it's **your** responsibility to make the most of the new subjects and experiences.
- TY is like a blank page handed to you in August and it is up to you whether the page will still be blank or full by June.
- TY is all about self-motivation, enthusiasm and dedication.
- There is a lot of learning to do in TY; it's just a different type of learning.
- Why do it? - You learn more about yourself and the people in your year.
