### **Deposits paid**

Deposits paid for incoming students have been deducted from the first year's fee.

### **Capital Improvements**

The school fees only cover the day to day running costs of the school. The school receives no funding towards capital improvements from the government. We therefore charge a capital improvement fee of €75 per student or €140 per family to help assist us in maintaining and upgrading our facilities.

During the summer, we will be undertaking a number of capital projects including upgrading one of our Home Economics Kitchens as well as upgrading ten classrooms in the older part of our building. In the future if there is any year where capital work will not be required this amount will not be charged.
